In What Ways Do We Support the Professional, Cultural, and Social Atmosphere?

STUDENT
COMMUNITIES

There are two types of association structures classified into professional and social categories within the body of our University. Professional associations are specific to faculties, while social associations are of a general nature. In this context, our Faculty supports the development and experience gaining of our students in the professional field with the Tourism Association. In this context, OMU, with a total of 93 associations from photography to agriculture and cycling to chess, offers the institutional background necessary to create the atmosphere that will enable our students' study spaces and cultural development in the social field. Our students have carried out many activities and organizations with the associations. Ondokuz Mayıs University perceives its students as primary stakeholders and always supports new association proposals that will enable their development.
